Profil pentru gresie, E10 (10 mm)

Instalare cu încorporare
sub plăci ceramice
Lungime 2,5 m

Raw

Profilele din aluminiu pentru faianță și gresie oferă o soluție durabilă, practică și estetică pentru finisarea teracotei, protejând totodată muchiile plăcilor.

Алюминиевые профили для облицовочной плитки представляют собой надёжное, практичное и эстетичное решение для оформления керамических поверхностей, обеспечивая дополнительную защиту острых кромок плитки.

Profil cu picurător, Y10

Instalare cu încorporare
Lungime 2,5 m

Raw

Profilul din aluminiu cu picurător Y protejează marginile exterioare ale balcoanelor sau teraselor de scurgerea apei (ploaie, zăpadă, condensat).

Алюминиевый профиль с Y-образным капельником защищает внешние края балконов или террас от протекания воды (дождя, снега, конденсата).
